**Subject: Thanks for your support in helping Aravindam India's Skill Development & Employable Program for underprivileged children.**

Dear Mr. Sharma,

At the outset, we would like to thank your Initiative OneStepForward for accepting our proposal with open hands and understanding our concerns for one of our eagerly awaited opportunities. You are aware that our Initiative is an amazing Skill Development and Enhancement program which is trying to provide an alternate way for a guaranteed livelihood for children belonging to vast of India's Tribal communities. We certainly believe that an enormous amount of livelihood opportunities is available in the Non-Traditional employment segment.

Hence, we have designed a program which focuses on enhancing the skills of forthcoming generation and empowering them to ensure they can survive in this world with their head held high, with respect & dignity.

In other developed / developing worlds, these skills are treated with the utmost respect and provide ample opportunities for communities to thrive, develop and evolve. We are sure that with widening opportunities and global trends, the 200 students of Aravindam India Gurukul, the majority from tribal states living in slums in Gurugram, who are enrolled in our program will see a far brighter future in their life. The Indian Heritage arts skill will help children learn life skills, which allow them to become self-employable and earn their livelihoods right after getting knowledge from our organization.

We train and educate in Indian heritage skills like Kathak, Bharatnatyam, Kalaripayattu, Maratha Dhol & Vocal singing etc. to underprivileged children of the slums of Gurugram. The skills, we teach are timeless art-making overall development of the child after their formal school education. These life skills help them become self-employable and allows them to earn later in their life.

We feel privileged and proud to have had the chance to know about your Social Financing Non-Profit initiative - OneStepForward, and reaching out to you was an absolute eyeopener for us. At such young age, you have been so committed to society, its needs and a very focused approach to everything that comes your way.

We would once again like to thank you and ensure you that the amount raised by your Initiative INR 2,00,000/- for skill development education shall not go in vain but will be a life-changer for these special 200 students by providing them props, mentors, teachers, trainers and making them ready for Shri Ram Nritya Katha Program scheduled in coming months. We almost lost hope, but partnering with you charged each of us. The way you have conceptualized and implemented the fund-raising campaign; it had been an exposure of an altogether different level for all of us at Aravindam. We certainly have learnt a lot and shall practice the same for many of our future initiatives with the hope that if we do, we shall have your guidance to implement it. We again would like to thank you and are glad to see how young contributors like yourself are helping our initiatives to empower societies. We are confident that India has a bright future with concerns like yourself.

Your support will help these children dream and achieve significantly, pull them out of poverty, rather than languish in a life of unskilled labour. Please accept our sincere vote of thanks on behalf of the complete team at Aravindam India, Gurukul.

Best Regards,

*Bindesh
